Language 1:

Portuguese (Brazilian)

Additional Information

Is there any additional information you would like to share related to the request you are submitting?

The Clinical Frailty Scale intended use as a visual aid in a screening tool for colorectal, breast and prostate cancer in populations over 75 years of age, as an auxiliary instrument to clinical judgement to recommend or not screening exams.

Disclaimer

The Clinical Frailty Scale (CFS), developed by Dr. Kenneth Rockwood, may only be used, reproduced and/or distributed in the provided formats, for non-profit and non-commercial research, education, quality assurance or clinical care use. The CFS must be administered free of charge to patients and/or study participants. A formal Licensing Agreement is required for research that is funded by a commercial entity or pharma and, in some cases, for use in routine clinical care. In the case that an electronic medical records (EMR) company is involved, permissions to use the CFS will be limited to the scope of use by the undersigned and will not extend to the EMR company outside of that use. The copyright holder reserves the right to prospectively follow-up at any time to determine whether use of the CFS meets the conditions described herein, and may revoke permissions if warranted. Reselling of the CFS or other commercial development without a license agreement is prohibited by the copyright. The undersigned, their delegates, and affiliated organizations agree that they will not claim ownership rights to the CFS, or any derivative thereof, including translations, compilations, sequels, or series. The CFS will not be modified unless explicit permission is granted.

Signature

Please sign to certify that all the provided information is correct, and you have read and understood the above statement.

A handwritten signature in black ink, appearing to be 'Matheus Barros', written over a light gray horizontal line.
